

For last year's school we were oversubscribed by a factor of 3, so we expect a similar ratio or more this year. We only have room for ~35 participants, thus if you are serious about trying to attend, please pay careful attention to the application procedures. There will be limited funds for financial aid, only given to applicants with well-explained cases and good recommendation letters.

See details in the First Circular, but the registration fee is 200€, and subsidized housing in a nearby hotel for 13 nights, including breakfast, will be provided for 350€.

To be considered, please email the following form (along with required attachments) to mwschool@black-hole.eu
