

The network will be organizing a total of four summer schools and conferences on subjects related to black hole astrophysics. These events are the following:

1. The [1st Summer School on Multiwavelength Astronomy](#) , which will take place from 2009 June 29 through July 10 in Paris, organized by CEA Saclay
2. The [2nd Summer School on Multiwavelength Astronomy](#) will take place in 28 June - 9 July 2010 in Amsterdam, Netherlands, and be organized by the University of Amsterdam
3. [Black Hole Variability 2010](#) workshop at the University of Southampton
4. A workshop on [Black Hole Astrophysics](#) was organized in Winchester in June 2011 by the University of Southampton
5. A final conference on [Black Hole Universe 2012](#) will be taking place in Bamberg, Germany, in June 2012
