

Dear Participants,

We are almost there. Additional things

0) Fondation Deutsch de la Meurthe :

An ID will be necessary if you arrive late (when our reception desk will be closed, after 6 pm).  
Pillow, blanket, sheets are provided. However, please bring your own towels.

As far as I know, wifi is not available everywhere in the building. In any-case, good wifi will be available at "Maison Internationale". See maps on website.

1) VO Session.

\* Please visit the wiki page on the school website or here:

<http://cds.u-strasbg.fr/twikiAIDA/bin/view/EuroVOAIDA/VOSchool09/MultiwavelengthSchool09>

There are additional small tools to install: TOPCAT, Aladin, VOSpec (no install required)  
advanced (if you can): VODesktop

\* Make sure you have java installed.

Mac OS users : Java should already be included in your OS. If not, download it from <http://developer.apple.com/java/download/>

Linux/Windows : Check if you have java installed by typing in a console : java -version  
If you see "Java 1.5.x" or "Java 1.6.x", your Java installation is fine. If you don't see this, you should install Java from <http://java.sun.com/javase/downloads/index.jsp> (choose the JRE 6 installation)

3) Hands-on informations are now available for CASA/DIFMAP/FERMI. see school web site.

See you soon.

Regards

Stephane, on behalf the LOC
